There Never Was a Time When Furniture Buying Would Be More Profitable Than During This

Genuine Oriental Rugs of Selected Patterns and Colorings Offered for Clearance in Our February Sale

As you probably know the war has vitally affected the production and the importation of Oriental Rugs, and those which we are able to bring to this country are of a necessity much higher priced than in former years. To obtain first quality pieces it is also necessary to use much more discretion than ever before.

If we were to go into the rug market today to buy such Oriental Rugs as these we have it is very doubtful if we would be able to secure them wholesale for as low prices as we are offering them to our patrons.

These Oriental Rugs we are sponsors for—their quality, their fast coloring, their harmonious patterns, their genuineness. Any purchaser can rest assured of their worth, and that the values are such as occur only in very rare instances.

FEBRUARY FURNITURE SALE

If you buy here you will get good, dependable, new and finest designed furniture at prices lower than may ever be quoted again for such goods. The upward trend in prices of so many different kinds of merchandise is also true of Furniture. Woods suitable for reliable furniture have advanced and so have all the integral parts of furniture, and labor skilled in the making of the kind of furniture we demand is scarcer than it has been in years.

This All Means That Furniture Prices Have Advanced.

But we purchased large selections of High-grade Furniture before these occurrences, and were able to get it at concessions from prices that prevailed at that time. We have stated, and we state it again for emphasis, that the savings range from 10 to 40 per cent on new furniture and on furniture of our own stock which we reduced.

Every Piece of Furniture in the February Sale Bears a Special Yellow February Sale Tag.

And We Advise You to Make Your Selections Now.
